PROFESSIONAL SUMMARY

Technical Project Coordinator with a background in Computer Science and hands-on experience managing **ERP**, web, and enterprise **software projects**. Skilled in **coordinating** cross-functional teams, handling client **communication**, gathering business **requirements**, and ensuring smooth project delivery using **Agile** methodologies. Experienced in working closely with **developers** and **stakeholders** to bridge technical and business objectives effectively.

PROFESSIONAL EXPERIENCE

Bengal Software Ltd

June 2023 – September 2025

Project Coordinator & Client Relationship Manager

Experienced in client relationship **management**, business growth, onboarding, and **negotiations**. Coordinated with internal teams to ensure smooth service delivery and client satisfaction. Directly managed a portfolio of 15+ software solutions using Agile and Scrum methodologies, achieving a 100% on-time delivery rate and improving team sprint velocity by **20%**. Acted as the primary point of contact for **stakeholders**, translating business needs into technical sprints for the **dev team**.

- Directed the end-to-end **ERP** deployment for **Palmal Group**, reducing manual reporting time by **25%** through optimized database schema design.
- Executed digital marketing campaigns for **Gallery Orchid**, increasing brand visibility by 40% and customer engagement by 35%.
- Contributed to the development of **Chainedllm**, a multi-LLM orchestration system developed with a Canada-based startup and Bengal Software Ltd.
- Coordinated the development and deployment of a **web application** for **Technic Construction Company Limited**.
- Supported the deployment of a **POS** software solution for **Rock Star**.
- Played a key role in developing and launching the multi-vendor **e-commerce** platform **Veendeshi.com** focusing on feature integration and deployment support.
- Delivered **four** simultaneous projects for **TAS Apparel & Mohona Fashion** through project coordination, client communication.
- Developed and deployed a **POS** system for **China Market** to support retail sales operations.

The ICT Hub

October 2022 – April 2023

Trainee Software Engineer

Completed a **6-month** internship at The ICT Hub, where I closely contributed to two software development projects. During this period, I gained hands-on experience in real-world application development, collaborated with development teams, and supported implementation, testing, and delivery activities across project lifecycles.

- Developed an **ERP** system and a website for **Anzara Bridal Bangladesh**, ensuring end-to-end system development, seamless integration, and delivery aligned with business requirements.
- Assisted in the development and implementation of a Hospital Management **ERP** system for **Momtaz Trauma Center**.

KEY PROJECTS

Online Judge for Beginner Programmer

[GitHub](#)

JavaScript | MySQL | Database | GNU compiler | Ace Js editor

- Developed a web-based coding platform using JavaScript and Python, enabling users to solve programming problems and submit solutions via an interactive interface.
- Implemented code compilation and execution using the GNU Compiler (GCC), allowing real-time testing and secure submission to the backend server.
- Designed RESTful API backend services to handle submissions efficiently, ensuring secure data storage in a MySQL database.

Patient Management System

[GitHub](#)

Python (Django) | JavaScript | HTML5 | CSS3 | MySQL

- Developed a web-based Patient Management System to manage patient records, appointments, prescriptions, and clinical workflows.
- Implemented backend features using Python Django, including authentication, appointment tracking, and secure database operations.
- Built responsive UI using JavaScript, HTML, and CSS to improve usability and streamline healthcare processes.

Flat Finding Web Application

[GitHub](#)

C# | ASP.NET | ASP.NET MVC | JavaScript | MySQL Database

- Developed a flat-finding web application using JavaScript to help users search, view, and manage available rental properties.
- Implemented core features including property listing, filtering, and search functionality to improve user experience and accessibility.
- Designed a responsive and user-friendly interface to ensure smooth navigation across devices.

Portfolio Master

[GitHub](#)

HTML5 | CSS3 | JavaScript | Swiper.js | Git | GitHub | GitHub Pages

- Developed a personal portfolio web application using JavaScript to professionally showcase projects, technical skills, and work experience.
- Implemented structured and interactive sections for project highlights, skills overview, and contact functionality.
- Designed a fully responsive and modern UI to ensure optimal user experience across all devices.

LEADERSHIP & COMMUNITY INVOLVEMENT

Vice President- Atandra Foundation

June 2020 – May 2025

- Directed strategic planning, team leadership, and financial oversight initiatives to ensure effective organizational operations and long-term sustainability.
- Established and maintained strong stakeholder relationships while leading community-focused initiatives aimed at supporting underprivileged and disadvantaged populations.
- Drove organizational growth and operational excellence through process optimization, cross-functional collaboration, and effective execution of development initiatives.

Research & Development Secretary- Debating Forum of IUBAT

May 2020 – April 2022

- Managed research activities, content development, and information curation to support high-quality debate preparation and knowledge sharing initiatives.
- Contributed to the enhancement of debate standards and overall forum development through strategic planning, analytical research, and collaborative engagement.
- Coordinated with team members and organizers to facilitate debate sessions, research activities, and intellectual development programs effectively.

Academic Mentor - IUBAT IT Society

July 2019 – June 2022

- Provided academic guidance and mentorship to CSE students, supporting course selection, academic planning, and long-term career development strategies.
- Assisted in organizing and facilitating workshops, programming competitions, and IT events to enhance technical skills and student engagement.
